Coblong, Dago, Kota Bandung

Profile

A third-year Information Systems & Technology student at Institut Teknologi Bandung with a strong interest in data analytics and artificial intelligence. Possesses solid analytical thinking and a continuous learning mindset, developed through academic projects, laboratory assistance, and organizational experiences. Experienced in working with data-driven problem solving, building structured solutions, and collaborating effectively across both technical and non-technical teams. Currently seeking a Data/AI Internship opportunity to deepen practical exposure in data processing, machine learning implementation, and intelligent system development.
